SCC Scheduled Payments

© Molex, LLC

SCC Scheduled Payments

What it is:

Molex can use scheduled payments to inform suppliers about planned payments via SCC Portal.

Capabilities:

- After approving invoices from suppliers, SAP automatically sends scheduled payments to SCC portal.
- Scheduled payments are for information only
- SCC portal can forward them to suppliers through auto email or displays them in their online Inboxes
- Provides suppliers with real-time tracking of when their approved invoices will be paid
- Supplier will have Net Amount Visibility: if there is any discounts, taxes, or deductions applied.

DEMO SAMPLE
