

# Ariba Network Profile and Molex Registration Guidance

There are two different sets of information you can navigate to once you have created your Ariba Network account:

- An Ariba Network profile for your company.
- The Molex Supplier Registration Questionnaire

# Ariba Network Profile

- The A.N. company profile section looks like the image to the right. This is your public-facing profile that other prospective customers and suppliers can see of you.
- Molex does not need you to fill in any of this info, though it will be a nice-to-have, if you interact with other customers or suppliers through Ariba in the future.

Look for a Molex tab or link. Look for Molex Registration Questionnaire.

# Additional Guidance

When you begin the Molex Registration Questionnaire:

- Please avoid special characters and spaces in the Primary phone number and Primary fax number fields. Numeric digits only.
- Enter only the local (for your country) phone or fax number. Our system automatically prepends international dialing codes based on the country you selected.
- If you do not have a fax number, please enter “0000000”.
- In the later “Contacts” section, where you can specify individual contact names and phone numbers, hyphens, parentheses, plus signs, international dialing codes, and extensions are OK in the phone and fax fields.
- If you are based in Hong Kong and do not have a postal code, please enter “0000000”.
- We ASK for your “asset size”, but this field is NOT required by Molex.
- We do not require you to upload a company logo.
